

Dutch Meat & Feed Centre
(managed by Wan Dai Ying)

Company profile

The Dutch Meat & Feed Centre is a business development portal for Dutch companies active or interested in the animal and feed production chain in China and South-East Asia. Also, it is a network development portal for Asian companies interested in the Dutch market and its companies. The centre has an office in Beijing.

Our products comprise: Network and relationship development, Account management, Project management (either being small scale events organisation such as delegations and booth setup or large scale coordination activities), Market research and Expert consultancy.

Our unique selling point is Dutch understanding of business demands and local knowledge of the market. Combined with our meat-feed know how and project management skills, it makes us your perfect partner.
